Re: Connect America Fund, WC Docket No. 10-90

Dear Ms. Dortch,

South Central Utah Telephone Association, Inc. ("SCC" or the "Company"), Study Area Code 502286, hereby notifies the Federal Communications Commission ("FCC" or "Commission") and the Wireline Competition Bureau ("WCB" or "Bureau") of changes that the Company made to its previous two FCC Form 477s on February 23, 2016. The changes described herein contribute to a significant and vital amount of funding that appeared as a "loss" in the Alternative Connect America Model ("A-CAM") Version 4.2 illustrative results.

SCC's previously-filed FCC Form 477s containing data as of December 31, 2014 and June 30, 2015 had incorrectly identified 9961 census blocks that are within its study area as having broadband service deployed using FTTP by the Company. The mislabeled blocks were an inadvertent error that came to light when SCC began reviewing the A-CAM Version 4.2 illustrative results in depth.

SCC immediately took action and submitted revised forms on February 23, 2016. However, the Company remains concerned that these changes will not be incorporated into the forthcoming versions of the A-CAM. SCC respectfully requests that the FCC allow these corrections to be included in the A-CAM as soon as possible to reflect accurately these facts. Without these corrections, future versions of the A-CAM will not reflect the facts pertaining to the Census Blocks served by SCC with the correct broadband technology. Without these corrections, the Commission's universal service policy for the SCC study area will be frustrated as the amount of support available will not be sufficient to advance broadband technology in the area.

Sincerely,
